### Williams Wins for Senator.

Williams has won the Democratic nomination for State Senate by a small majority. The official count shows that Prichard carried Elliott by 672. Williams carried Lawrence 167, Greenup 217, Boyd 326, giving 38 majority.

## LEGISLATIVE REUNION.

Members of 1888 Body Called to Meet in Frankfort.

Louisa, Ky., July 30, 1913.  
After consulting with several members, I have decided to call a meeting of the survivors of the General Assembly that met in Frankfort December 30, 1887, to meet at Frankfort some time during the coming winter, during the session of the next General Assembly that will meet in that city.

This call is made for the purpose of a reunion of the members and attaches of that memorable session, 1887-8. For the purpose of arranging time and details of the proposed meeting I hereby designate and appoint Hon. F. T. D. Wallace, of Louisa, Ky., Hon. David H. Smith, of Hodgenville, Ky., and Hon. John K. Hendrick, of Paducah, Ky., of the Senate; and Hon. Robert C. Hill, of Beattyville, Ky., James Andrew Scott, of Frankfort, Ky., and Hon. Jas. A. Hughes, of Huntington, W. Va., of the House, a Committee to arrange as to time and details of proposed reunion. These gentlemen are requested to confer with each other as to time and details and are requested to report result of their deliberations to me in order that I may give due notice to all parties concerned. It is desired to make this one of the most memorable occasions ever witnessed in Frankfort. It is admitted that the personnel of that session was one of the ablest bodies of representative men ever assembled in the city of Frankfort.

The press of the State is most respectfully requested to publish this call in order that all concerned may have due and timely notice of the proposed reunion.

G. W. CASTLE,  
Sergeant at Arms,  
of the Senate.

Mr. W. L. F. Bradshaw, a prominent traveling salesman of Pittsburgh, having resigned his position with the Southern Mine Supply Co., of Charleston, W. Va., has accepted a similar one with the Bluefield Hardware Company and will be permanently located in Williamson, W. Va. He is a worthy young gentleman.

Thomas J. Slattery, of Marysville, is an applicant for the position of United States Attorney for the Eastern District of Kentucky, and his candidacy is receiving the support of his friends in the Northern and Eastern ends of the State. Mr. Slattery was in this city last week and received the endorsement of the local bar.

### MISS KATHARINE THOMAS HURT

A letter from Mrs. J. C. Thomas, written from Manitou Springs, Col., tells of an injury received by her daughter, Katharine, in falling from a horse. She was riding with several others, when her saddle turned and she fell to the ground. The horse stepped on one of her hands, spraining and bruising it very much. The animal kicked the saddle to pieces, but fortunately none of its kicks struck the girl. She also received several muscle bruises and was unconscious when picked up. She was carried to the hotel by the doctor who was summoned to her aid and was confined to her bed for several days. She is out again, however, apparently none the worse for her experience. Jack's health has improved.

### SALYER-McCALL.

Miss Carrie Salyer, daughter of Mr. and Mrs. Chas. H. Salyer, was married in Pittsburgh, Pa., last week to Mr. Herbert R. McCall. Mr. McCall bears the reputation of being a sober, industrious young man, a carpenter by trade, and a member of a very respectable and well-to-do family. The bride does not need description, as she is a former Louisa girl.

The words have been spoken, The spell is broken, The brave and the witty has won the fair, May peace and happiness rest with the pair.

### A FRIEND.

#### HEAD TORN OFF.

On the night of Monday, July 28, while Boyd Hensley, of Naugatuck, was crossing a railroad trestle near Crum, about 15 miles east of Fort Gay, he was struck by a fast freight and instantly killed. The young man's head was clipped from his shoulders and knocked from the trestle. His body was dragged for some distance, terribly mangled and finally cast by the wheels to the ground below. The remains were taken to Naugatuck for burial.

### WAS HERE FROM OHIO.

Jesse Cyrus, formerly of this county, but now a prosperous citizen of Pickerington, O., was here last week, being interested in the county primary. He relates with evident pride the fact that his daughter, a young miss of 14, carried off the honors at a spelling bee held in her school.

## LOST HIS LIFE.

Harry Eppling, N. & W. Fireman, Killed by Mail Crane.

Between the hours of nine and ten on Sunday night last Harry Eppling, an N. & W. fireman, while in the cab of an engine on an east bound train, was so badly injured that he died about half an hour after he was hurt. Eppling was an one of the two engines which were pulling a heavy freight, and it was not until some minutes had elapsed after the accident had occurred that it became known. The train was then between Webb and Glenhays. Examination showed that he was still living, and he was carried back to Fort Gay as speedily as possible.

The company surgeon, Dr. Bromley, of this city, was sent for and rendered all possible aid to the injured man, but he died shortly after the doctor's arrival. Eppling's skull was badly crushed, one fracture extending a distance of about five inches. It is supposed that he was leaning out of the cab window and had been struck by a mail crane. Eppling was a single man and lived in Portsmouth, where the body was sent for interment.

### THE CAMP MEETING.

Those interested should not forget that the Fountain Park camp meeting will begin on Friday, Aug. 8th. Besides the attractions already announced the presence and assistance of Mrs. Brown, the colored evangelist, are expected.

## DEATH'S CALL

Answered by Three Old Citizens of Lawrence County.

Rev. James H. Moore, Mrs. Margaret Moore and James H. Woods Laid to Rest.

After many months of suffering, borne with the patient resignation and fortitude which enabled this lovely character to bear the ills of life without a murmur, Mrs. Margaret Moore peacefully passed from time to eternity last Sunday morning. Her going away was so calm, so serene that the transition, the change from dull mortality to blessed immortality was almost imperceptible to the devoted children and other kindred who had unweariedly and so tenderly watched and waited on her whom they had loved so much.

On Monday morning very simple, very appropriate services were held at the home of her daughter, Mrs. Hannah Lackey, where she had been so long the honored guest. Very many from here and elsewhere had gathered to pay this tribute of respect to her, who in a life of more than three quarters of a century, had never spoken ill of a fellow human being. When she could not praise, she was still. The brief service was conducted by the Rev. J. W. Crites, pastor of the M. E. Church South. He was assisted by the Rev. French Rice, who offered prayer, and the Rev. Mr. Neff, of the Kavanaugh circuit, and who was the resident pastor of the deceased, and who read the scripture prescribed by the ritual of the church on such occasions. Several appropriate hymns were sung during the solemn exercises. Mr. Crites spoke in part as follows:

Margaret Moore, nee O'Brien, was born March 11, 1838; passed peacefully to rest August 3, 1913; aged 75 years, 4 months and 2 days. She was the daughter of John and Hannah O'Brien. She was united in marriage to W. F. Moore November, 1855. To this union were born seven children, one of whom died in infancy. The husband died 17 years ago. She was converted and joined the M. E. Church South when sixteen years of age, and has been a Christian approximately 60 years.

At nine o'clock Sunday morning just as the church bells were calling the Sunday Schools together for the study of God's word, Mother Moore answered to the roll call above, and her pure spirit winged its flight to the paradise of God, to rest under the shade of the tree of life. Blessed are the dead who die in the Lord from henceforth; yea, saith the Spirit for they rest from their labors and their works do follow them. No matter how many milestones we may have passed nor how far down life's western hillside we may have gone, the death of mother is a distinct loss.

The town has lost one of its best citizens, the church has lost a valuable member, but the loss of the children can not be computed; but their loss is her gain. To the Christian, "To die is to gain."

She was a good wife and mother, and the counsel of this mother will live in the hearts of these children years after her head is pillowed in the dreamless dust. The busy march of the world over our hearts, does not prevent us from feeling the heart-throbs of a dear old mother. After her tongue is silenced in the dust, and the heart has ceased to perform its function forever, we still feel like exclaiming, "Sweet spirit, hover over us." Children, you may sometimes imagine you feel the touch of a vanished hand and hear a voice that is still, but mother is in a fairer clime, awaiting your coming. May the mantle of this good mother fall upon her children.

At the conclusion of the service the body, followed by a very large number of relatives and friends, was borne to its last earthly resting place—beautiful Pine Hill—where her grave for years to come

will be a shrine sacred in the hearts of those who survive the mother, sister and friend.

Six children, Mrs. Hannah Lackey, Mrs. Chas. Newman, Miss Kate Moore, Fred, John and Richard Moore, one sister, Mrs. F. R. Moore, one brother, Judge J. H. O'Brien, and many grandchildren, nephews and nieces lament the loss of this dear woman.

She lived here many was more loved and respected. She was a woman of much refinement and simplicity of manner, strong common sense, and a charity which knew no bounds. These and other virtues endeared her to all who had the good fortune to know her. Above all she was a devoted follower of Christ, never doubting. It was hers to say with the good old Quaker poet:

"I know not where His islands lift

Their fringed palms on high; I only know I cannot drift Beyond His love and care."

This faith, yea, this more than faith—this knowledge, carried Margaret Moore through hours of trial and sorrow and gained for her the inheritance which fadeeth not. We revere her memory.

### James H. Woods.

Mr. James Woods, a well known and highly respected citizen of this county, died early Sunday morning last at his late home, the old Judge Burton place, on Lick Creek, near Louisa, aged 51 years. His death was caused by typhoid fever, with which he had been sick for several days before he would give up work and go to bed. Hemorrhages soon followed, then perforation of the bowels, speedily followed by death. On Sunday evening the body was taken to Paducah, where interment was had in the Green Hill cemetery at the mouth of Mud Lick.

Mr. Woods is survived by a widow and five children. Mrs. Woods is a daughter of Mr. John Butler, of Johnson county, and a niece of Robert Dixon, of this city. He was a native of Johnson county, where he resided until about 14 years ago, when he moved to this county and located at Jean, in the Dry Fork section and engaged in business. He remained there until last spring, when he moved to his late residence on Lick Creek, where he had a general store.

Mr. Woods was one of our best citizens. He was a sober, intelligent and industrious man, of undoubted integrity and high personal character, and a good husband and father. The death of such a man in the prime of life, is a great loss to the community.

### Rev. James H. Moore.

The Rev. James Moore, a well known citizen and minister of the gospel, died Friday night last at his home on the head of Rich creek, this county, aged 76 years. He was buried the following Sunday near the home where he had lived many years. His death was the result of a complication of bodily ills. He is survived by two sisters, one brother, John, of Fallsburg, and several children. Among the latter is the Rev. H. K. Moore, of the M. E. Church South. Several of the children were unable to reach this place in time to attend the funeral of their parent.

Mr. Moore was a prominent and highly respected man, "clever" and popular. In early and middle life he was active in county affairs, always on the side of education and right living. He will be greatly missed by the community in which he lived.

### RUSSELL FORD DEAD.

Russell Ford, a prominent young man of Catlettsburg, died Monday in Cincinnati, where he had gone for treatment. He was a grandson of "Buck" Ford, deceased, who was well known to very many of the old citizens of this section.

President Wilson took his first decided step in the policy through which he proposes to deal with Mexico by formally accepting the resignation of Ambassador Henry Lane Wilson, to take effect October 14 and sending to Mexico as his personal representative—but not accredited to the Huerta Government—former Gov. Lind, of Minnesota.

### LOUISA GRADED SCHOOLS.

The Louisa Graded Schools will open on next Monday, August 11, for the year 1913-14. All of the work of the High School and Normal grades will be taught at the College building, also the ninth grade of the common branches. The other grades will be taught at the Public School building. As usual, Prof. Kennison will have charge of the High School work, and President Byington the Common School and Normal departments. All departments of the Kentucky Normal College, except the Commercial, will open at the same date.

### ATTENDED FUNERAL.

Among those who attended the funeral of Mrs. Margaret Moore were Mrs. James Patton, Judge Lahan Everett, G. F. Gallup and Mrs. Mary Brown, of Catlettsburg; Mrs. Lockwood, of Lockwood station; J. F. Hatten and daughter, Miss Elizabeth, of Buchanan, Mrs. Houston, Mrs. Jesse Songer, Mr. and Mrs. Tom Songer and daughter, Miss Chattle, Mrs. Fannie Savage and Mrs. Harlow Savage, of Ashland.

### THE BUSY BIRD.

Last week the stork found business to attend to in this city. Its first call was at the home of Mr. and Mrs. Mokslett, the Burning Bush or "Jumper" preacher, where it left a daughter.

Its next visit was to the residence of Mr. and Mrs. Mont Holt on Saturday afternoon. Its donation there was a fine son.

## LEGISLATORS CONVICTED.

West Virginia Members Sentenced to Penitentiary for Accepting Bribes.

Webster Springs, W. Va., Aug. 4.—Sentences were imposed upon the five members of the West Virginia Legislature late to-day by Judge W. S. O'Brien in the superior Court. The legislators were convicted of bribery in connection with the election of a United States Senator early in the year. The sentences followed.

Delegates S. U. G. Rhodes, Rath Duff and H. F. Ashbury, six years each in the penitentiary; State Senator B. A. Smith, five years and six months, and Delegate Davis Hill, five years. In addition the five are disqualified for life from holding a public office or office of trust.

The sentencing of the legislators came shortly after Delegate Davis L. Hill, the fifth to stand trial on bribery charges, was convicted this afternoon. After the sentences were imposed an arrest of judgment and stay of execution for ninety days was allowed by the court to permit attorneys for the defendants to make applications for appeals to the State Supreme Court.

More than two months have been consumed in the trials of these charges, the first of their kind in West Virginia. There were seven legislators indicted, the five already tried have been held on felony charges and the other two, George S. Van Mater and the Rev. T. J. Smith, of misdemeanor charges. The trial of the last two will probably be deferred until another term of court.

The convicted legislators were arrested in Charleston, W. Va., late in the afternoon of February 11, by Sheriff Bonner Hill, in the presence of Public Prosecutor Townsend, who with the aid of a private detective investigated the rumors of bribery, which were being circulated at that time in regard to the senatorial election. Before their arrest, it is alleged, they were paid by the private detective for their votes and the marked money was found on their persons.

Judge Boggs has returned from his visit to his former home on Blaine, where he had been for rest and recuperation. While by no means a well man the Judge is much improved.

Jim Spradlin, Circuit Court Clerk of Floyd county, has gone to North Carolina to remain until October for the benefit of his health. His wife and children are visiting her relatives at Bowling Green.

## "A Perfect Woman Nobly Planned To Warn, to Comfort and Command"

Nature never intended woman to be delicate, ailing, or a sufferer from "nerves." Women in middle age complain of "hot flashes." Many women suffer needlessly from girlhood to womanhood, and from motherhood to middle life, with backache, or headache, dizziness, faintness, or bearing-down sensations. For a permanent relief from these distressing symptoms nothing is so good as

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

The touch of some people is moral; to know others is inspiration and life. Pain and suffering are inseparably connected with hate. Cultivate gardens of flowers and not weeds in your heart.

To be beautiful we should be good. As you open the window of your house to admit sunshine and fresh air, to drive out malaria, so also should you open the windows of your soul, drive out the gloom and despair and let in the blessed sunshine of God's love and joy.

A beautiful writer has said: "If there be a pleasure on earth which angels cannot enjoy and which they might almost envy man the possession of, it is the power of relieving distress. Every kind act we do but inclines us more and more toward such deeds, and we become reader do the same again and with more joyment. Every kindness done others in our daily walks advances us nearer those great souls which make the age they live in memorable."

Happiness is the inalienable right of childhood. Give a child half a chance and it will make a joy of life. God made it carefree. The sorrows of life and death are like a dream to it. "Heaven lies about it" and it sees visions beautiful. Its father is the noblest and wisest of men, its mother the dearest and tenderest and best in the world. Every pleasant man and woman is its friend, and the world is a fine and wonderful place that it hopes later to explore. It lives the life of the heart and of the imagination and has no trouble except when the tyrannical hand of some adult rudely deprives it of legitimate joy.

All possible charities of life ought to be cultivated, and when we can neither be brethren or friend, let us be kind neighbors and pleasant acquaintances. Our life is what we make it. Most people will find difficulties and hardships enough without seeking them. Let them not repine but take their troubles as a part of the educational discipline necessary to fit the mind to arrive at the highest good.

Some of us, as we grow old, become so oppressed by the cares and sorrows of mature life that we quite forget the days of our youth. The pains and pleasures of childhood seem so trivial that we fail to realize that a child's sorrows are as keen and probably keener, than anything we know in adult life. We forget the exquisite joy that a new toy gave us, and the palpitating pleasures of a visit to town, the ecstatic delight of a day in the woods. And we forget, too, the depth of anguish that came with each disappointment.

We have heard a great deal about love in a cottage. It is a pretty sentiment, very poetical and captivating to those who have been used to luxury and refinement, but can you pay for your cottage? The house first and the bride after; the means first and the wife to follow. This is the plainest common sense. Great expectations are often great disappointments. Measure the stature of a man, his power to swim in the rough tides, his mastery over himself, his energy, self respect, self reliance and self control. Gifted with these, if he has but enough to find you the humblest hut, he will lead you skyward, sunward and never downward.

Let all our little kindnesses be from a loving heart, and not formal acts for the world to see. Let us not wear two faces—the one in company, the other behind the scenes. But let us be kind, loving and true at home, when the world is not looking on. The home in which love reigns supreme is a heaven on earth. "The bosom which does not feel love is cold; the mind which does not conceive it is dull; the philosophy which does not accept it is false." And the only true religion has pure and reciprocal love for its basis. Be kind and affectionate to mother. Let it be the greatest pleasure to perform, the little loving kindnesses that add so much to the brightness of a home. Meet father with a kiss of love. Be a ray of sunshine in your own home.

Happiness ought to be contagious and to make it so the good things of life must be shared. Not merely with our family but with our neighbors and acquaintances, our townsmen, and "the strangers within our gates." We should use our blessings, not put them up in lavender leaves or camphor balls

to keep—but scatter them broadcast, share them with others. If we have blooming roses, share them; if we have fine grapes on our vines, share them; if we have beautiful pictures, invite people in to see them; if we have helpful thoughts, give them away. This generous method of living will bear a rich harvest, not perhaps in a like return but in placing the donor on a higher plane of thought and giving him a broader view of life and its obligations.

An author is known by his writings—a mother by her daughter, a fool by his words, all men by their companions.

## KENTUCKY NEIGHBORS.

Ber Wolf has organized the Oil Springs Oil & Gas Co., with local people as stockholders, and the company is putting down a well at Oil Springs. It is expected that the well will be completed this week. The well is being drilled on a direct line with the oil belt and the promoters have hopes of finding a paying well. This company has 240 acres in this territory and if this well is any good a large number of wells will be drilled at once. —Paintsville Herald.

Lightning is no respecter of person or property, apparently, nor does it distinguish between good and evil, for Saturday it struck and burned the Ezel meeting house, one of the finest church properties in this section. —Hazel Green Herald.

General Deputy Collector George W. Castle, of Grayson; Marshal Thos. Hatfield, Hindman, and Deputy Collector Samuel Collins, of Whitesburg, with possemen, returned from a three days' moonshine raid through Beaver Creek, Carr's Fork and the Troublesome section of Knott and Floyd counties, and were successful in destroying twelve large alleged moonshine outfits. Two alleged moonshiners, Alex. Francis and Joe Noble, were arrested, the latter being but 16.

"Aunt" Mary Evans, colored, reputed to be 115 years old, died at her home in Winchester last week. She had been sick only a few days and until the time of her illness had shown remarkable activity.

Out of 27 prisoners paroled at Eddyville Friday, only five were white.

Whitesburg, Aug. 1.—The Regular Baptist Advocate, of which Elder R. H. Field, of the Big Cowan Creek Baptist church, is editor, has made its appearance here. It is a monthly publication and deals with the old regular Baptist doctrine. The paper is issued from the office of the Eastern Kentucky News.

Lydia Bailey, the six year old daughter of Harrison Bailey, of Norton Branch, 15 miles from Ashland, on the A. C. & L. railway, was shot and instantly killed last Thursday evening by Sarah Kelly, aged 13, daughter of Jas. Kelly, a neighbor. The Kelly girl claims that the shooting was an accident, but there are circumstances connected with the killing which are being investigated by the authorities of Carter county. The children were alone in a room of the Bailey home when the tragedy occurred.

The well on the Sturdivant farm in the lower end of town was drilled into the oil producing sand last Saturday and a fine flow of gas was the result. There had been some showing of oil and the operator, I. N. Phipps, intends to drill through the sand in the hope of getting oil. It is thought this well will be about equal in volume and pressure to the Morgan County Meat, Fuel and Light Company's well on Elk Fork. Other wells will be drilled in the neighborhood of the Sturdivant well in order to give the territory a thorough test. —Licking Valley Courier.

Mrs. Harrop, wife of the Rev. F. W. Harrop, died at her home in Covington, aged about 45 years. She had been an invalid for many years.

Louis Baldwin, of Ashland, was struck by an automobile driven by J. M. Maggard last Friday, and so badly injured that he died.

Whitesburg, Aug. 4.—There is little doubt that Anna Chrissie Stallard, living near Hilliard, seven miles from here, on the head of Colly creek, is the oldest and most remarkable woman in Kentucky to-

day. Aunt Chrissie lately rounded out her actual 104th milestone and is still almost an active and alert as most women of half her age, doing a considerable amount of labor about her home. She lives alone, doing her household work and all the work on the outside. Aunt Chrissie's mental qualities are as good as they ever were.

Ollie Howard, of Elliott county, who was arrested some days ago in a local hotel with a woman not his wife, is in a serious condition at the city prison, where he has been confined since his arrest, suffering from attacks of lockjaw. Howard suffered over thirty of the spasms last night and one this morning. —Independent.

All doubts as to the fate of Oscar Clark, who mysteriously disappeared Sunday morning from the transfer boat Lucy Coles, on which he had accepted a position as watchman, were removed this morning, when his body was found caught on a trolley line near the John Paul Jones place about a mile below Ashland. —Independent.

Morehead.—Thursday was Good Roads day at the Rowan County Teachers' Institute. Mrs. Cora Wilson Stuart declared it was the most important session ever held in Rowan county. D. W. King spoke for two hours, and followed his address with a practical demonstration. A great many persons, who for several days have been expressing their doubts, were converted. Forty persons gave their names and promised to make split-second decisions. The teachers propose to drag the road at every schoolhouse in the county.

Mrs. John Marcum, of Williamson, charged with having three husbands, has been arrested. She has been employed as a cook at the James Hotel. It is alleged that soon after her husband, John Marcum, was sentenced to the penitentiary, she married an Italian, whose name is unknown. On Jan. 1, 1913, it is alleged the woman married a Greek named Frank Terkin.

### DIV. 4, SUB-DIST. 10.

On the first day, July 14, I enrolled 22 boys and 27 girls, total of 49. Up to date I have enrolled 24 boys and 30 girls, total of 54. In Grade 1, I have enrolled 23; Grade 2, 7; Grade 4, 13; Grade 6, 6; Grade 8, 5. All children under the compulsory law have been in attendance except for a few days on account of sickness. My highest attendance for any day is 49; the lowest 45. We have had 18 visits from the patrons of the district, and four of sub-district trustee. Am trying my very best to teach by the course of study and the daily program. We have had one visit from our county supervisor with much good information, and are anxiously awaiting for her presence again. Would be glad to have suggestion from other teachers, as we want to make our school one of the most progressive in the county. ELVA SCAGGS, Teacher.

### SOME THINGS I HAVE OBSERVED.

Some time ago while in school I met a young man named Don Reeves. While on my tour working for a publishing house I had the pleasure of being at a box supper on July 21st in the school taught by him—Patton school, Rowan county. He raised \$19.40. Every parent, every pupil, and a number of neighbor teachers were present. This young man was not only raising money but he was investing it cautiously in good literature. Every

parent in that district has pledged to send his children to school every day. One week of his school has been closed and his attendance has been 100 per cent. Lawrence county teachers think. Can we not do some of these things in Lawrence?

All the teachers in Rowan visited the parents of his respective district with pledge cards and asked the parents to pledge their children a regular attendance at school. Before doing this some interested business men held meetings in every district in Rowan. At these meetings people were inspired to send their children to school.

## "A Perfect Woman Nobly Planned To Warn, to Comfort and Command"

Nature never intended woman to be delicate, ailing, or a sufferer from "nerves." Women in middle age complain of "hot flashes." Many women suffer needlessly from girdling to womanhood, and from motherhood to middle life, with backache, or headache, dizziness, faintness, or bearing-down sensations. For a permanent relief from these distressing symptoms nothing is so good as

as a soothing and strengthening nerve-sedative and subduer of nervous excitability, irritability, nervous exhaustion, and other distressing symptoms commonly attendant upon functional and organic diseases of the female system. It induces refreshing sleep and relieves mental anxiety and despondency.

The "Favorite Prescription" is known everywhere and for over 40 years as the standard remedy for the diseases of women. Your dealer in medicines sells it in liquid or tablet form, or you can send 50 cent stamps for a trial box of Dr. Pierce's Favorite Prescription tablets. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

The touch of some people is moral; to know others is inspiration and life. Pain and suffering are inseparably connected with hate. Cultivate gardens of flowers and not weeds in your heart.

To be beautiful we should be good. As you open the window of your house to admit sunshine and fresh air, to drive out malaria, so also should you open the windows of your soul, drive out the gloom and despair and let in the blessed sunshine of God's love and joy.

A beautiful writer has said: "If there be a pleasure on earth which angels cannot enjoy and which they might almost envy man the possession of, it is the power of relieving distress. Every kind act we do but enriches us more and more toward such deeds, and we become reader do the same again and with more enjoyment. Every kindness done others in our daily walks advances us nearer those great souls which make the age they live in memorable."

Happiness is the inalienable right of childhood. Give a child half a chance and it will make a joy of life. God made it carefree. The sorrows of life and death are like a dream to it. "Heaven lies about it" and it sees visions beautiful. Its father is the noblest and wisest of men, its mother the dearest and tenderest and best in the world. Every pleasant man and woman is its friend, and the world is a fine and wonderful place that it hopes later to explore. It lives the life of the heart and of the imagination and has no trouble except when the tyrannical hand of some adult rudely deprives it of legitimate joy.

All possible charities of life ought to be cultivated, and when we can neither be brother nor friend, let us be kind neighbors and pleasant acquaintances. Our life is what we make it. Most people will find difficulties and hardships enough with out seeking them. Let them not repine but take their troubles as a part of the educational discipline necessary to fit the mind to arrive at the highest good.

Some of us, as we grow old, become so oppressed by the cares and sorrows of mature life that we quite forget the days of our youth. The pains and pleasures of childhood seem so trivial that we fail to realize that a child's sorrows are as keen and probably keener, than anything we know in adult life. We forget the exquisite joy that a new toy gave us, and the palpitating pleasures of a visit to town, the ecstatic delight of a day in the woods. And we forget, too, the depth of anguish that came with each disappointment.

We have heard a great deal about love in a cottage. It is a pretty sentiment, very poetical and captivating to those who have been used to luxury and refinement, but can you pay for your cottage? The house first and the bride after; the means first and the wife to follow. This is the plainest common sense. Great expectations are often great disappointments. Measure the stature of a man, his power to swim in the rough tides, his mastery over himself, his energy, self respect, self reliance and self control. Gifted with these, if he has but enough to find you the humblest hut, he will lead you skyward, sunward and never downward.

Let all our little kindnesses be from a loving heart, and not formal acts for the world to see. Let us not wear two faces—the one in company, the other behind the scenes. But let us be kind, loving and true at home, when the world is not looking on. The home in which love reigns supreme is a heaven on earth. "The bosom which does not feel love is cold; the mind which does not conceive it is dull; the philosophy which does not accept it is false." And the only true religion has pure and reciprocal love for its basis. Be kind and affectionate to mother. Let it be the greatest pleasure to perform the little loving kindnesses that add so much to the brightness of a home. Meet father with a kiss of love. Be a ray of sunshine in your own home.

Happiness ought to be contagious and to make it so the good things of life must be shared. Not merely with our family but with our neighbors and acquaintances, our townsmen, and "the strangers within our gates." We should use our blessings, not put them up in lavender leaves or camphor balls

to keep—but scatter them broadcast, share them with others. If we have blooming roses, share them; if we have fine grapes on our vines, share them; if we have beautiful pictures, invite people in to see them; if we have helpful thoughts, give them away. This generous method of living will bear a rich harvest, not perhaps in a like return but in placing the donor on a higher plane of thought and giving him a broader view of life and its obligations.

An author is known by his writings—a mother by her daughter, a fool by his words, all men by their companions.

## KENTUCKY NEIGHBORS.

Ber Wolf has organized the Oil Springs Oil & Gas Co., with local people as stockholders, and the company is putting down a well at Oil Springs. It is expected that the well will be completed this week. The well is being drilled on a direct line with the oil belt and the promoters have hopes of finding a paying well. This company has 240 acres in this territory and if this well is any good a large number of wells will be drilled at once. —Paintsville Herald.

Lightning is no respecter of person or property, apparently, nor does it distinguish between good and evil, for Saturday it struck and burned the Ezel meeting house, one of the finest church properties in this section. —Hazel Green Herald.

General Deputy Collector George W. Castle, of Grayson; Marshal Thos. Hatfield, Hindman, and Deputy Collector Samuel Collins, of Whitesburg, with possemen, returned from a three days' moonshine raid through Beaver Creek, Carr's Fork and the Troublesome section of Knott and Floyd counties, and were successful in destroying twelve large alleged moonshine outfits. Two alleged moonshiners, Alex Francis and Joe Noble, were arrested, the latter being but 16.

"Aunt" Mary Evans, colored, reported to be 115 years old, died at her home in Winchester last week. She had been sick only a few days and until the time of her illness had shown remarkable activity.

Out of 27 prisoners paroled at Eddyville Friday, only five were white.

Whitesburg, Aug. 1.—The Regular Baptist Advocate, of which Elder R. H. Field, of the Big Cowan Creek Baptist church, is editor, has made its appearance here. It is a monthly publication and deals with the old regular Baptist doctrine. The paper is issued from the office of the Eastern Kentucky News.

Lydia Bailey, the six year old daughter of Harrison Bailey, of Norton Branch, 15 miles from Ashland, on the A. C. & T. railway, was shot and instantly killed last Thursday evening by Sarah Kelly, aged 13, daughter of Jas. Kelly, a neighbor. The Kelly girl claims that the shooting was an accident, but there are circumstances connected with the killing which are being investigated by the authorities of Carter county. The children were alone in a room of the Bailey home when the tragedy occurred.

The well on the Sturdivant farm in the lower end of town was drilled into the oil producing sand last Saturday and a fine flow of gas was the result. There had been some showing of oil and the operator, I. N. Phipps, intends to drill through the sand in the hope of getting oil. It is thought this well will be about equal in volume and pressure to the Morgan County well on Elk Fork. Other wells will be drilled in the neighborhood of the Sturdivant well in order to get the territory a thorough test. —Licking Valley Courier.

Mrs. Harrop, wife of the Rev. F. W. Harrop, died at her home in Covington, aged about 45 years. She had been an invalid for many years.

Louis Baldwin, of Ashland, was struck by an automobile driven by J. M. Maggard last Friday, and so badly injured that he died.

Whitesburg, Aug. 4.—There is little doubt that Anna Christie Stallard, living near Hilliard, seven miles from here, on the head of Colly creek, is the oldest and most remarkable woman in Kentucky to

day. Aunt Christie lately rounded out her actual 194th milestone and is still almost as active and alert as most women of half her age, doing a considerable amount of labor about her home. She lives alone, doing her household work and all the work on the outside. Aunt Christie's mental qualities are as good as they ever were.

Ollie Howard, of Elliott county, who was arrested some days ago in a local hotel with a woman not his wife, is in a serious condition at the city prison, where he has been confined since his arrest, suffering from attacks of lockjaw. Howard suffered over thirty of the spasms last night and one this morning. —Independent.

All doubts as to the fate of Oscar Clark, who mysteriously disappeared Sunday morning from the transfer boat Lucy Coles, on which he had accepted a position as watchman, were removed this morning, when his body was found caught on a trolley line near the John Paul Jones place about a mile below Ashland. —Independent.

Morehead.—Thursday was Good Roads day at the Rowan County Teachers' Institute. Mrs. Cora Wilcox Stuart declared it was the most important session ever held in Rowan county. D. W. King spoke for two hours, and followed his address with a practical demonstration. A great many persons, who for several days have been expressing their doubts, were converted. Forty persons gave their names and promised to make split-log drags. The teachers propose to drag the road at every schoolhouse in the county.

Mrs. John Marcum, of Williamson, charged with having three husbands, has been arrested. She has been employed as a cook at the James Hotel. It is alleged that soon after her husband, John Marcum, was sentenced to the penitentiary, she married an Italian, whose name is unknown. On Jan. 1, 1913, it is alleged the woman married a Greek named Frank Terkin.

### OBITUARY.

Elizabeth Eastham, wife of Jno. H. Eastham, one of the pioneer settlers of the East Fork valley, or a tributary stream known as Trace creek, in Boyd county, Ky. She was born April 5, 1825, died July 28, 1913, aged 88 years, 3 months and 23 days. She departed this life at her old residence. Her demise was attended by a host of relatives and friends. She was married to John H. Eastham March 13, 1845. From this union there were born 7 children, 2 boys and 5 girls. The greater number of them, with

many grand children and great grand children, and relatives running through the Lockwood, Ross and Chadwick families, are left to mourn the loss of grandma Eastham; but their loss is her eternal gain. She united with the M. E. Church when a young girl, lived a consistent christian life which was a long journey of more than four score years, but at last safely anchored in the Harbor of Eternal Rest to await the second coming of our Lord, when there will be a general reunion of soul and body at the resurrection of the dead.

May the blessings of heaven rest on the bereaved ones, and through the mercy of our Heavenly Father be prepared to meet grandma Eastham where parting never comes.

The funeral was conducted by the writer.

## RESULT OF PRIMARY IN FLOYD COUNTY.

At last Saturday's primary election the following were nominated: Democrats—County Judge, B. C. May; Clerk, J. M. Davidson; County Supt., Tilden Collins; Sheriff, O. H. Stumbo; Jailor, J. C. Martin; Assessor, Elder Hiram Hall; County Attorney, W. Lee Roberts; Coroner, Thos. Bentley.

Republican—County Judge, Malone Hall; Clerk, J. N. Harris; Sheriff, R. E. Stanley; County Attorney, U. S. Hall; Supt. Oma Preston; Jailor, Hiram Morgan; Assessor, Elisha Hall.

## MAN STABBED; MAY DIE.

On last Saturday, Tom Blackburn and son Frank Blackburn, who had an old grudge against Joe Burchett, stabbed him and struck him with rocks, and it is thought he can not live. They ran him and his brother, James Burchett, into Cord Clark's house, where the Burchett brothers barred the doors. These were broken down by the Blackburns, and James Burchett made his escape. The Blackburns also made their escape and it is thought they have gone to West Virginia.

## PICNIC.

On last Sunday a number of young boys and girls went on a picnic. They were Misses Anna Harmon, Mary Richmond, Annie Martin, Inez Cottrell, Annie Fitzpatrick, Grace Mellon and Edna Sizemore; Messrs. ## AN EDUCATIONAL CREED.

The State that has the men has the present, and the State that has the schools has the future. A great Commonwealth's idealization of education is the result of the law of self-preservation. It recognizes its own being as an organism composed of spiritual atoms that are capable of growth or degeneration. Intelligent patriotism or anarchy. It is natural for our government to idealize an intelligent, active, rational, aggressive citizen. It takes a full-grown mind to reach and a full-grown heart to feel a full-grown democracy. It will take full-grown citizens to make a full-grown Kentucky, and a full-grown school system exploited to the highest degree of social and industrial efficiency to make full-grown citizens. Our noble boys and girls stand by our side armed with ability and nerve ready to accomplish the larger Kentucky, if we will only give them an opportunity. We greet childhood today and recognize a patriotic call for education and more abundant education, ideas, and more noble ideas, more government by the teacher and less government by the policeman, more government by the school house and less government by the military camp, more and better schools and fewer jails and penitentiaries, more scholars and fewer criminals, more freemen and fewer slaves, more life and still more life. We need more life, and every patriot will join in the great work of putting at the door of every child in the land a modern school house with equipment and sanitation, a democratized course of study, and a teacher of scholarship, character and personality. We believe in a public policy and efficiency that will ring the moral, intellectual and industrial "rising bell" in the life of every child in our land.

## SOME ROAD FIGURES.

## State Aid Argument Based on What Has Been Done.

As Uncle Bill came out of the postoffice with a letter in his hand, the discussion of the tariff lulled, and one of the men yelled, "Uncle Bill!"

The old man's face wrinkled in to a smile as he held up his hand and said, "Hold on, hold on. I know what you want to ask. You see this letter, it's got just the answers you want, I'll bet a hat." He pulled the letter from its envelope, adjusted his silver-rimmed spectacles and continued, "You recollect that about a week or ten days ago all of us here at the store was talking about State Aid for road building. Some of you fellows asked a whole lot of questions. One of 'em was, what some of the roads in this state cost the government."

"Have you got the figures?"

"Yep, I just went home and wrote up to Frankfort and got 'em straight. Say, there're more of 'em and they're bigger than I thought they was. I'm going to read 'em out, if you want 'em?"

"Sure we do"—and the group drew closer about Uncle Bill as he seated himself cautiously on a nail keg.

"Well, I find that way back in 1821 Kentucky gave \$1,000 to improve the grade over Muldrow's Hill. That was part of the Lexington to Nashville road. But later when the people began to build sure enough good macadam roads, the state put the money up in big chunks. When they built the road from Lexington to Frankfort, she gave \$78,123. That was 27 miles of road. Then here are the other roads:

Frankfort to Louisville, 52 mi., \$65,000.

Covington to Lexington, 85 mi., \$200,000.

Louisville, Frankfort to Crab Orchard, 123 mi., \$260,000.

Louisville, Bardstown to Tennessee line, 144 mi., \$500,000.

Louisville, Bowling Green to Tennessee line, 154½ mi., \$442,000.

"How much was that all together, Uncle Bill?"

"Wait, I just got this letter and I'll have to do some figuring," and he got a stub of a lead pencil from his vest pocket. After quite a time he announced with pride and satisfaction, "If you add in the \$213,200 for the Maysville road, that makes \$1,758,322 that was given in State Aid way back yonder before land was worth much and before there was any factories or big business to tax."

"Why do you reckon they done it, Uncle Bill?"

"Because they had more every day common horse sense than we got, I reckon. They was sharp enough to see that it wasn't any tax; but an investment to boost the price of their land."

"I reckon that's so, Uncle Bill." "Sure, it's so. The poorer your land the more you need a road to make it sell. If it's first class land and off the road, you can sell it; but if it's poor and off the road, you're up against it. Most of our land — well, it's poor enough to need a road to make it sell for a good stiff price."

"Of course, everybody knows that good roads are needed and needed bad."

"Well, then, if all of us know we ought to have good roads, and we know they'd improve the price of land, all we got to do is to find out the cheapest way, ain't it?"

"Yep."

"Well, then, if anybody's got a better and an easier way than State Aid, just trot it out and I'm for it all right."

## SENATORS FAVOR GOOD ROADS

Growing Belief That Government Should Concern Itself With Construction of Highways.

National roads come in for repeated reference in the senate debate relating to the post office appropriation bill. It is evident that there is a constantly growing belief that the federal government before long should concern itself with the construction of trunk line roads, thus encouraging and making more convenient the great flood of interstate travel.

During the debate in the senate Senator Swanson of Virginia made this comment: "We are now confronted with the proposition whether the federal government shall or shall not extend aid for the development, improvement, and construction of highways. The time has arrived, or will very soon arrive, when the people of the United States will demand that the federal government shall extend proper aid. Whatever may be the views of some, it is a question that must be inevitably met, and one that cannot be shirked. When a government comes to extend aid for roads there are two ways by which it can be done: It can furnish the money and construct the road itself, or it can aid, stimulate and lend inducement to the local authorities to do the work of road construction and improvement."

Senator Heyburn of Idaho believes: "When the government enters upon this class of work it should be for the construction of roads up to the standard of the highest use, not all at one time, but continuously and gradually; not roads one part of which would be worn out before the other was constructed, but a system of progressive construction that would result within a reasonable time in a system of permanent good roads."

Senator Williams of Mississippi is a contender for first class construction. Said he, "You must make one road good, then you must make another good, and then a third and then a fourth. There must be some scheme whereby they could be done with fairness to the states and the several sections of the country."

Senator Lodge of Massachusetts contends: "If we are to enter upon the policy of federal aid in good roads it will involve an expenditure of more millions than the Panama canal cost, and it ought to be done only after most careful consideration and on a broad, well understood, well arranged plan, so that for the millions expended we may get value in the return, we desire in good roads."

Senator Bourne, of Oregon, who is chairman of the senate committee on postoffices and postroads, said: "I am heartily in favor of good roads. My opinion is, however, that we have not sufficient information to take intelligent action as to the best method of procedure."

## POOR ROADS ARE EXPENSIVE

Inefficiency Costs Southern States \$300,000,000 a Year to Cart Cotton to Railroads.

The cost of bad roads is strikingly set forth by Wm. C. Redfield, secretary of commerce in President Wilson's cabinet, in this manner:

The inefficiency arising from bad roads makes it cost something like \$300,000,000 a year to cart our cotton crop from the fields to the railway station. I think few people realize the immense tax put on us all by bad roads and inefficient handling.

I have said that if our farmers once realized the awful tax that bad roads impose upon them public opinion would sternly demand the making and maintaining of good roads everywhere. It now costs the farmer twelve, yes, twenty or more, times as much per ton mile to move his goods to the railway station as it does to move them on the railway after they leave the station. The farmer, indeed, in bad cases and at certain seasons may have to pay as much as \$1 a ton mile, while the railroad carries the freight, when it once gets it, at an average of three-quarters of a cent per ton mile.

Among the factors which bring up the cost of living, there are few which stand ahead of the useless cost of transportation, due to poor and often impassable roads. Poor roads not only make the consumer pay more for produce, but they rob the producer of that which should be added to the price paid him for his produce. There are few subjects on which the public is so unanimous as this one of the cost of poor roads, and yet at the same time few subjects on which it is harder to make people agree as to the remedy and where the initiative should be taken.

## Producing Pork.

At the Iowa station corn and soy beans hogged down produced 18.7 pounds of pork per bushel of corn. At eight cents per pound that is \$1.33 per bushel for the corn.

## FARM POULTRY

## START IN POULTRY BUSINESS

Initial Step Should Be to Determine on Breed of Fowls Adapted to One's Locality.

The first thing to do in taking up poultry as a business is to find some breed adapted to the locality, then stock up with that breed and study it, says the Poultry Journal. Personality enters into the success of the poultry industry to a large extent. A man must be good-natured, for one thing, and willing to give his time and patience to detail work. For these reasons a man who takes up this business for pleasure often succeeds much better than the man who goes into it for purely the money it brings him. Success in this business comes slow-

Excellent Specimen.

ly. It must be built up. It requires patience, but when success does come everything after that is easy and the profits are good.

To the man who wishes to enter the poultry business at a small expense, I would advise stocking with a dozen hens of some good breed. It is not well to try to do too much until the beginner has learned how to make a small flock pay. I have had very good success in getting eggs from my hens all the year round. I hatch the chicks as early as possible in the spring. The best time to market chicks is when they weigh about two pounds and fowls just before molting. I find it profitable to market eggs where they must be guaranteed fresh, working up a good trade for the produce at a fair price.

## CAUSES OF MANY FAILURES

Endeavor to Save in Expenses by Cheapening Cost of Houses and Space Is Enumerated.

The Illinois station gives among the causes of failure in the poultry business the following:

Endeavoring to keep too many fowls where room for one only can be obtained, that is saving in expenses by cheapening cost of houses and space.

Buying fowls from other farms and thus bringing disease and lice into the flocks.

Overfeeding, the fowls being supplied with greater abundance under the supposition, the more feed the more eggs.

Cold draughts over the fowls at night, with a view to supplying fresh air, when the temperature is low.

Wasting time with sick fowls instead of destroying all birds that can not be cured quickly.

Pekins lay from 120 to 170 eggs a year.

Forcing for eggs out of season is unprofitable.

Keep the hens' nests clean and provide one for every four hens.

If fowls are compelled to roost in foul and damp houses it causes illness.

The earlier the maturity, all other things being equal, the greater the profits.

Sell off your old rooster and get a better one than you ever had of some neighbor.

The chick that is alive ten days after hatching has most of its dangers behind it.

If a fowl becomes sick, separate it from the others and doctor it, as the disease may be contagious.

Laying hens drink a very large amount of water if it is clean and kept constantly before them.

The old rule of improving the human race by beginning with the grandparents applies also to poultry raising.

For hatching purposes take the eggs from the hens that lay best. Build up, never let the standard down.

A shelf a couple of feet below the roosts is handy to catch the droppings and handy to clean. And don't forget to clean it.

Breeding stock should be carefully selected by the poultryman and then given the best care, plenty of fresh air, sunshine and exercise.

A few nails thrown into the drinking pan will give poultry all the iron they need, but they should not be allowed to remain there. Clean the vessels every day.

## Shorthand Text Books and Machines Free.

We are teaching the Systems of Shorthand that hold the World's Record for Speed and Accuracy. In the National Shorthand Reporters' Association, held in New York, Aug. 4-23, 1912, Jno. D. Carson won the World's Championship for Speed, 270.7 net words per minute. He uses Success (Pitman). Chas. L. Swem, a young man 19 years of age, won the World's Championship for Accuracy, writing 269 words per minute, 99.6 per cent perfect. He uses the Gregg System.

The writers of the FOLLOWING SYSTEMS were the only ones able to qualify: Isaac Pitman, GREGG, SUCCESS (Pitman) and Graham. The Official Records of the Association are in our office for the inspection of all interested persons.

Our Bookkeeping is the most up-to-date System known to the Science. Interesting, THOROUGH and PRACTICAL in every respect. Either Single Course can be finished in 4 to 7 months. You will then be in a position to earn \$50.00-\$100.00 per month, and we will also help you to THAT position and without any extra cost to you. We have advantages that will appeal to every wide-awake young man and woman and we want to get in touch with YOU. We are in position to render you a lasting service. Write us AT ONCE for particulars.

We repeat we have unequalled advantages for those interested. All we ask is an opportunity to demonstrate these FACTS.

Ed. Div. 8, at Fallsburg, at 10 a.  
m., Thursday, Aug. 14.

All newly elected trustees and  
all hold-over trustees, whose terms  
expire in 1914, are required to at-  
tend these meetings.  
In districts where elections should  
have been held this year, but  
failed to do so, the old trustees are  
also notified to attend these meet-  
ings, as they will serve until their  
successors are elected at the next  
meeting of the County Board, which  
will meet Saturday, Aug. 23, 1913,  
at 10 o'clock at my office.

I want to insist that each and  
every trustee notified, be present  
at these meetings. All matters per-  
taining to the duties of trustees  
under the new school law will be  
discussed at these meetings, and  
Teachers' Report Blanks, Grade  
Cards, Copies of the New Course  
of Study, and other blanks required  
in the various districts will be dis-  
tributed. Much trouble and con-  
fusion can be avoided in the future  
by the prompt attendance of every  
member of the Division Boards.  
And I will declare all offices vacant  
where the trustee fails to be pre-  
sent unless he presents a lawful  
excuse in writing.

The last white teachers' exami-  
nation for this year, including both  
county and state, will be held at  
Louisa, August 16th and 17th. The  
last colored examination will be  
held August 22nd and 23rd.

All cases of delinquency in atten-  
dance must be promptly reported  
at the close of each week by the  
teachers after the first month.  
Make your reports to Don C. Bel-  
cher, Gallip, Ky., and Miss Eliza-  
beth Lester, Webbville, Ky.

Respy's.

pleased to learn that there is at least one  
dreaded disease that science has been  
able to cure in all its stages, and that is  
Cataract. Hall's Cataract Cure is the only  
positive cure now known to the medical  
fraternity. Cataract being a constitutional  
disease, requires a constitutional treat-  
ment. Hall's Cataract Cure is taken in-  
ternally, acting directly upon the blood  
and mucous surfaces of the system, there-  
by destroying the foundation of the dis-

## METHODS FOR ERADICATING INJURIOUS BITING INSECTS

Constant and Concerted Warfare Must be Made Against Little Pests—Arsenate of Lead May be Purchased Ready Prepared and Is Quite Convenient to Use—Other Recipes.

(By GLENN W. HERRICK, Mississippian.)

There are many kinds of insects that pester the farmer and fruit grower, and all of them, taken together, may be divided into two great groups dependent upon the kind of mouth parts they have and the manner in which they attack plants. The insects of one group have jaws and bite off bits of plants and swallow them. They are known as the biting insects. The members of the second group have a bill or sucking tube which they insert into the tissues of plants and suck out the juices. These are the sucking insects.

The grasshopper is a familiar example of the first class of insects, for it has biting mouth parts, composed of two pairs of jaws, one of which is hard and black and easily seen with the eye. With these jaws the grasshopper bites off pieces of leaves, stems, etc., and swallows them much as a cow or horse would do. Very many insect pests have biting mouth parts like the grasshopper and eat parts of plants. For example, the caterpillars, or "worms," on cotton, tomatoes, cabbage, etc., the June bugs, fig-eaters, potato bugs, etc. All such insects are known as the biting insects.

It is plain that an insect that bites off pieces of leaves and swallows them stands a relatively high chance of being killed by putting some poisonous substance upon the leaves before they are eaten. It is absolutely necessary to know what kind of an insect is causing the injury—whether it is a biting or sucking insect. This is the first point to determine.

Probably Paris green is one of the best known poisons for biting insects. It is rather expensive, difficult to buy unadulterated and is quite liable to burn the foliage of plants if applied too strong.

It can be applied dry as follows:

1 pound of Paris green,  
25 pounds of slaked lime or flour.

The two should be thoroughly mixed and may be sifted on the plants from a thin muslin sack, preferably in the morning while the dew is yet on.

Paris green may also be applied in water, which we believe is a better method than the dry one for most plants. Quick lime is added to prevent burning of the foliage and the poison is used in the following proportions:

1 pound of Paris green,  
200 to 300 gallons of water,  
3 pounds quick lime.

Slake this lime in a little water and add the Paris green. Stir thoroughly.

The Way the Female Grasshopper Places Her Eggs.

and then add the proper amount of water—for potatoes 200 gallons of water, and for peaches 300 gallons.

Arsenate of lead is a combination of arsenic and acetate of lead and is better than Paris green, because it sticks to the foliage better, will not burn the leaves, and remains in suspension longer. It can be made as follows:

11 ounces acetate of lead  
(white sugar of lead),  
4 ounces arsenate of soda,  
50 gallons water.

Dissolve the acetate of lead in 4 quarts of water and the arsenate of

soda in 2 quarts of water. Pour them together, mix thoroughly and then dilute with 50 gallons of water. It is then ready to use at once.

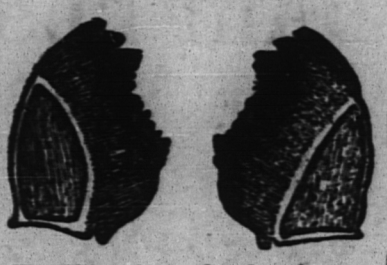

Arsenate of lead can be bought ready prepared and is very convenient to use. It should be used at the rate of 4 to 6 pounds of the arsenate of lead to 100 gallons of water.

White arsenic is cheap, easy to get, and is not often adulterated. Therefore, when it is combined with lime or sal soda to prevent burning of the foliage, it is a most satisfactory insecticide.

It may be prepared as follows:

1 pound white arsenic,  
4 pounds quick lime,  
4 gallons water.

Boil the lime and arsenic together in the water for half an hour and then

The Biting Jaws of a Grasshopper.

dilute with 200 gallons of water for spraying.

Arsenate of lime may also be prepared by boiling two pounds of white arsenic and eight pounds of sal soda in two gallons of water for 15 or 20 minutes, or until the arsenic and soda are dissolved. This constitutes a stock solution which may be kept in a sealed jug for a long time. When ready to spray, slake two pounds of quick lime, take one pint of the stock solution and mix them both with 40 gallons of water.

## SEASON WOOD BY ELECTRICITY

Method as Pursued in France Described in British Technical Paper—Does Work Well.

The following item from a British technical paper concerns a new process of seasoning wood by electricity in France:

A large tank is filled with a solution containing 10 per cent. of borax and 5 per cent. of resin, with just a trace of carbonate of soda. In the bottom of the tank is a lead plate which is electrically connected to the positive pole of the dynamo. The timber to be treated is stacked on this plate, and when the tank has been filled another plate is superimposed and connected to the negative pole of the dynamo. When the current is switched on it passes through the stack of wood between the two plates, and in its passage it is said to deposit borax and resin in its place, completely filling up all pores and interstices. When the process is completed the timber is removed and dried, after which it is ready for use. It is claimed that the timber submitted to this treatment, no matter how green it may be, becomes completely seasoned.

## Protect the Silo.

Wherever possible the silo should be located in a sheltered place, as it has a great bearing on the extent to which the silage will freeze. A silo that is built on the west side of a barn, where it is exposed to the cold winds, even if it is built with dead air spaces, will freeze more than one built of solid concrete if it is sheltered.

## WEST VIRGINIA NEIGHBORS

Mr. Floyd Hancock, of Floyd, Va., and Miss Florence Copley, of Kermitt, were married recently at Williamson by the Rev. James Thompson. Mr. Hancock is a prominent business man of that city. Miss Copley is a bright and charming young school teacher.

Don Slater, formerly a resident of Williamson, was killed Thursday morning in a battle with strikers on Cabin Creek. He was employed as a watchman by one of the coal companies.

A terrific hail storm swept through the Kanawha Valley last Friday, damaging crops and prostrating wire communication. The monetary loss is heavy, but no lives are believed to have been lost.

Half a dozen frame buildings at the corner of Third Ave. and Pike St., Williamson, were entirely destroyed by a fire Tuesday morning. F. D. Pfening, proprietor of the Royal Baking Co., was painfully injured during the fire.

Mrs. Arabelle Copley is the oldest teacher in point of service in Wayne county, having taught forty years. Lee S. Dick is second oldest, having taught thirty-eight years.

## Mothers Have Your Children Worms

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetites? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. ## CELEBRATION IN LOUISVILLE

KENTUCKY METROPOLIS WILL COMMEMORATE INCIDENTS IN WAR OF 1812.

## HUNDRED YEARS OF PEACE

Battles Which Kentuckians Won and Massacres in Which They Suffered Will Be Reproduced in Fireworks and Shams on Land and Water.

A week's celebration, which Louisville declares will be the greatest and most spectacular in the history of celebrations in America, will be held in the Kentucky metropolis for seven days, commencing September 29, and will be the climax of a series of celebrations held in a dozen lake cities, to commemorate the sufferings and victories of American arms in the War of 1812 as well as to focus attention on the achievements of a century of peace. The crucial and decisive engagement of the War of 1812 was the battle of the Thames, fought and won on Canadian soil October 5, 1813. The series of celebrations, which will be held in America will close in Louisville, October 5, 1913, and just one hundred years from the hour that Col. Richard M. Johnston, afterward Vice President of the United States, slew the Indian chief Tecumseh, President Woodrow Wilson will probably be addressing a crowd of 100,000 people in Louisville, the home of many of the troops who fought in the battle of the Thames.

Kentucky was assigned the closing and choice date of the celebration because of the distinguished part played by the Kentuckians in the War of 1812. Kentucky began to play her part in the generation before the war opened, when she sent Gen. George Rogers Clark and other Louisville soldiers into the hostile wilderness which they wrested from the French and Indians and out of which was afterward carved the great States of Ohio, Indiana, Illinois, Wisconsin and Michigan.

Kentucky was the last state which could have benefited from the war, inasmuch as it was brought about chiefly by the British impressment of American seamen, none of whom were Kentuckians, whereas should war prevail the unfriendly Indians on the frontier of the border states could be expected to commit atrocities from which Kentucky had already received the name "Dark and Bloody Ground." However, it was chiefly Henry Clay, in the Kentucky Congressional Delegation that forced President Madison to declare the second war with Great Britain, and Kentucky furnished forty per cent of her fighting population to go into that war, and at the close of the war of the listed dead more than eighty per cent were the names of Kentuckians. Kentucky troops to a man were massacred at the River Raisin and again at the first attack on Fort Meigs.

When the time came to man Perry's new-bewn ships, he selected Kentuckians unaccustomed to the motion of the lakes to mount into the insecure rigging and from that vantage point, with their practiced eye and unerring aim, fired down upon the British and won the battle of Lake Erie. Practically every officer and soldier in the battle of the Thames was a Kentuckian, excepting alone Gen. William Henry Harrison, who, however, held his commission as Major-General from the Kentucky legislature. The charge of the Fortin Hope, about the briefest, most terrible and most heroic attack narrated in the annals of warfare, consisted exclusively of Kentucky soldiers when nineteen of them and their twenty horses went down to certain death. It was the Kentucky sharpshooters who are credited with having won the battle of New Orleans after the war had in reality closed.

Kentucky proposes to reproduce most of these scenes of the war of 1812 in the Louisville celebration. The battle of the Thames will be reproduced on land in Cherokee Park, topographically situated similar to the land on which was fought the battle of the Thames, and every detail of the sham battle will be as nearly historically correct as can be done. Louisville will take advantage of her magnificent river frontage in order to celebrate suitably the battle of Lake Erie. The actual battle will be depicted in a gorgeous entertainment of fireworks and all morning and all afternoon preceding the engagement there will be boat races, life saving feats and aquatic sports. A historical pageant, depicting various scenes of the war of 1812 will also include a magnificent floral parade, such as made Louisville famous a year ago, and will include civic and military parades many miles in length. Drills and exercises by 10,000 costume school children will be held in the First Regiment Armory; a mammoth reception will be given to the descendants of Kentucky soldiers and sailors of the war of 1812, and a series of costumed balls will be given in their honor.

Exceedingly low railroad rates, probably as low as one cent per mile, from a distance of several hundred miles of Louisville, will be granted and efforts are being made to secure to other Kentucky points rates from Louisville for the week immediately following the celebration, to enable former Kentuckians who return home to visit the celebration, to visit also their old Kentucky homes.

## FARMS FOR SALE.

This should appeal to men that want to raise cattle, hogs, sheep, or any kind of stock, and the man that wants to garden, raise fruits or berries, etc., for the markets are excellent here. The market gardener heads the list, the dairyman next, the live stock man next, etc. I have farms suited for all purposes, many of them on the best pikes in the county, some on good roads, all handy to school and church. I get a good many questions asked me: "Are there any negroes in the school district near such a farm you have advertised?" I have no farms in negro settlements, so there are no mixed schools here. Many of the farms I have for sale are close to my own. You may find men that will tell you before you get to me that it is too far out. Don't stop. Come on. I can show you better. The land is better out here, is much smoother and the roads are just as good. I have several good farms for sale with good locations for store, blacksmith shops, and many good opportunities for men to make money. Come and see me before you buy. Write or call me over the Bell phone. Write to Sciotoville, Ohio. Always come on No. 15 on the N. & W. Write four days before you start. I will meet you with rig.

## WATTS-WEBB.

The following from the State Line Republican, published at Mammoth Springs, Ark., will be interesting to many people of this county. The masculine member of the new firm is Joe Webb, formerly of the Dry Ridge section, where many of his relatives reside. This is not Joe's first sail on the matrimonial sea, but his Kentucky friends wish for him a pleasant voyage, with only an occasional squall.

Mr. Joe Webb and Miss Rilla Waits were married last Sunday, at 11 o'clock, a. m., at the home of the bride's mother, Mrs. Sim Waits, Elder L. P. Fraysher officiating; the relatives only of the contracting parties being present.

After the ceremony and attendant felicitations, a sumptuous wedding dinner was served. In the afternoon the entire company repaired to the Webb home where another feast awaited them.

Mr. Webb, with his daughters, came here from Oregon about three years ago and purchased the Smith farm, one of the most beautiful places around Riverside. The bride is a daughter of Mrs. Sim Waits, who with her late husband, "Uncle Sim," have been long and prominent members of the Big Creek neighborhood.

Mr. and Mrs. Webb combine all the elements conducive to a happy and prosperous life, the which we heartily wish them.

## A State Wide Invitation

Monster Barbecue to Be Given by J. N. Camden at Versailles, Aug. 20, 1913

THIS meeting of farmers and their friends who are interested in the agricultural advancement of Kentucky is to be held that every one in the state may become acquainted and "rub elbows" with his neighbors and friends. It is to be a great farmers' convention, a place where, besides the "getting together," there will be speakers who really have something to say to the men who get their living from the soil.

In the past a barbecue, with its huge joints of smoking juicy meat and its bubbling steaming burgoo, meant political speechmaking and a warming of party spirit. This immense barbecue is a definite effort to give the farmers of the state a chance to meet and get acquainted and to hear some of the strongest speakers in the whole country discuss vital farm questions. These speakers will be brought to the meeting from the north, south, east and west, and, as they are to be limited to thirty minutes each, they will be sure to send their messages home in quick, short sentences. The list of speakers is about complete and will be given in full in the next article, which will be published soon. Kentucky is thoroughly aroused educationally, and this meeting is an outgrowth of this great wave of enthusiasm.

When your correspondent visited the Camden farm, just outside of Versailles, a few days ago he was shown the various points of interest that the visitor might wish to inspect. Competent men will be in charge of each farm department so that questions by visitors may be answered quickly.

In visiting the dairy barn, with its carefully selected herd of seventy-five Jerseys, it was pleasing to note that the barn had originally been used for J. N. CAMDEN.

VERSAILLES, KENTUCKY.

TO THE FARMERS OF KENTUCKY.

For a quarter of a century the great problems of manufacturing and of transportation have been handled upon the advice of experts—men whose accurate and scientific knowledge extends to the minutest points.

In the past few years able men have realized that farming could be put upon the same basis—that instead of being of necessity a haphazard enterprise it is one of the most scientific businesses in the world—that it may be as accurate and as reliable as those processes of nature upon which it depends.

It has been realized also, that the principles of co-operation which have worked out such great things in the industrial world, may be used with equal effectiveness in the realm of agriculture.

To aid in the rapid spread of these ideas and principles seems to me to be a most useful and noble work, and one in which I would gladly have a part in Kentucky.

With this thought, I have decided to give an old fashioned barbecue at my home in Woodford County, near Versailles, on Wednesday, August 20th. It will be my aim to have matters along the lines I indicated discussed by some of the great agricultural experts of the country, and it will be my hope that this may give fresh impetus to the work in Kentucky for the farmers which is already so well begun.

Every Farmer, and every farmer's wife, and every one interested in better farming, in the state, who feels an interest in increasing the rewards of agriculture, and in bettering the conditions of farm life, is most cordially and urgently invited to be my guest on August 20th. This invitation is given in the spirit of good fellowship, and the desire to help, and all who accept it will be most warmly welcomed.

Very sincerely,

J. N. Camden.

housing tobacco. It was not a show barn at all, but a thoroughly sanitary barn, with the emphasis on the cow end of the enterprise. Out in the woods pasture there were several bunches of fine sleek steers, some of which were destined to help feed the hungry crowd on Aug. 20.

The woods pasture, with its giant oaks, poplars, walnuts and stately elms, is an ideal place to handle the 30,000 people who are expected to be the guests

at the farm on the day of the barbecue. In one end of this pasture there is a perfect amphitheater for seating those who wish to hear the speakers and the band concert which is to be provided.

Things are happening in our dear old state—better schools are building, better roads are being laid, Chautauqua meetings for farmers are developing, and now a barbecue to which an invitation is given, to each and every person who believes in the welfare and the future of the agriculture of the state is an assured fact. Men of vision are dreaming of a new Kentucky—a twentieth century Kentucky—and all the agencies mentioned are bringing the dream closer each day. Dreams do come true.
